

## Booking your Baby's First *Flirt and Flutter* | Portrait

***Location:*** For Baby Portraits it will really depend on the type of shoot you are looking for. I can go on location, or outside if you want it to include the whole family. If you are looking for a more posed photo shoot, where the emphasis is of your little darling exclusively, or of the love the two of you share I would suggest in-studio as that's really what it's set up for- the lighting and backgrounds are controlled to make you look your best and really bring out the new miracle you have created. If you are coming to the studio I generally book my sessions back to back and therefore will not be available for you to come in and get ready or begin the shoot before our allotted time.

***Cancellations:*** I have a strict 24 hour cancellation policy, which if you booked through a group-buy site would have been included in the fine print of the deal, otherwise the deal is forfeited. In extreme weather conditions I may offer to reschedule the booking up to one hour before the shoot, unless you hear from me please show up at the agreed upon time.

***Props/Clothing/le:*** I am accumulating my props and baby gear/ I have a few adorable little hats and bows for boys and girls, flowers, a tutu, teddy bear, alphabet blocks, etc. As well as black and white backgrounds. I would encourage you to bring whatever you are hoping to have in the shoot, any props you might have, any outfits you would like to see them in.

***Additional Fees:*** There are no taxes that need to be paid on packages purchased; however as with many services industries such as beauticians, restaurants, etc, gratuities are customary and greatly appreciated.

***Package Turn Around:*** If you have purchased a package through me, the contract I give to you will include the turnaround for the package. With the larger packages purchased from group buy sites the turn around to receive your package is approximately one month. I will choose the photos to be printed and burned on the CD however all photos included on the DVD will be in 300dpi high resolution and therefore able to be blown up for large prints at your leisure or with additional packages purchased from me.
